Allowable Subject Matter

1. Claims 2-8 allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 8, the applicants have presented a persuasive argument, see the first complete paragraph on page 5 of the response filed on 7/2/2004 that the cited prior art of record fails to disclose or suggest a method for producing a metal contact in a dielectric comprises the step of undercutting a perforated liner by etching said liner though a plurality of perforations, in combination with the rest of the limitations of claim 8. The closest cited prior art of Abe (US 6,455,430) discloses a method of embedding contact hole comprises the step of forming a perforated liner without suggesting a step of undercutting the perforated liner by etching said liner though a plurality of perforations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
